

Spike -

August 2011 - "Spike is doing wonderfully! We completed our arena and he and Sarah have had some "basics" time in it. He is a lot more advanced than she is, so it has been a wonderful experience. He really gets down to business in the arena being a "mount" and is a safe one for Sarah. It is as if

he says “I’ll just do what I am suppose to do here so you can concentrate on her.” In the pasture, he brays at any mare that leaves the pasture to ensure all is okay with leaving the herd. He is always concerned for his mares and they love it! Other than that, he is a extremely relaxed pony who is approachable in the pasture, interested in us humans and affectionate. We have had absolutely no behavioral issues with him whatsoever.”
